The Sonoma County Agricultural Preservation and Open Space District is currently recruiting for one (1) full-time Open Space District (OSD) Easement Monitoring Technician. This entry-level position has the primary role of monitoring protected lands to ensure landowner compliance with conservation easements and will perform the following types of duties:

- Monitoring properties protected by conservation easements, which includes researching property information, using maps for navigation, driving and hiking on protected lands, and gathering monitoring data (including photographs and GPS data).
- Working with staff, landowners, and volunteers to coordinate monitoring activities.
- Preparing monitoring reports and supporting maps and photos, which includes basic cartography using ArcGIS and data entry using Microsoft Access.
- Collecting and incorporating data, including GPS data, into GIS database.
- Preparing maps as necessary using GIS.
- Discussing observations of property conditions with District staff and analyzing land use activities in terms of easement compliance.

If you are interested in this position please go to the County of Sonoma's Job Posting to apply.
