Due Date: **May 23, 2017** (at start of class)
Point Total: **100 points**

California Missions

You will create a printed 24" x 18" map of the California Missions. Your map must be primarily about the California Missions with reference data which guides the map reader to a better understanding of these cultural landmarks. However, the actual focus of the map is up to you. You may focus on the historical context of when the missions were built, or how they impacted the Native American population, the conversion rate of the missions, or how to visit the missions today.

What to Turn In

1. The completed 24" x 18" map of the California Missions
